Datasheet capacitor electrolitico 1000uf

The difference of a capacitor for a battery is that it charges and discharges much faster and can do so much more often before it ruins! Specified: -Model: 1000UF; -Voltage: 16v; -Terminals 2; -Temperature: 105 °C. It is 10mm Capacitors are components that store electricity. Aluminum Electrolytic Conductor 1000UF 50V 13x25MM radial conductors with conductors are commonly used in high frequency circuits and in a contagated current and store small amounts of power, called capacitance. * Note to the legal entity: The products are marketed for use/consumption or industrialization. See the tutorial Our female fountain in the regulated characteristics: - encapsulated: electrolytic aluminum - structure: radial -4 assembly: trough hole - Capacity: 1000UF - Voltage: 50 V - Operating temperature: -40 °C to + 85 °C - Tolerance: +/- 20% to 20 °C C CIO 120Hz - Bait Corrienge: 3UA (max) for Mother's details View HOJA DATS: Electrolytic Cap 10-100V - from 0.1 to 22 000UF DATAsheet.pdf (340 KB) If you purchase for resale, in some countries, tax replacement payment is required, prices shown do not include replacement taxation. Always check the product description. Technical Specifications: Electric Capacitor Radial Aluminium 13x25 1000UF / 50 V - Data Sheet Model: Radial Long Lead Brand: OEM Capacity: 1000UF Maximum Temperature: 105 °C Colerania: +/- 20% Voltage: 50 V Dimensions: 13x25 mm Step (terminal): 5mm Subway terminal: 0.6mm Larger positive terminal (anode) Minor negative terminal (cathode) Size: 13mm x 13mm x 25mm Source: China Weight: 4G Packaging Contents: 01 - 1000UF / 50 V * Photos and simply pictures and illustrative screws. Son High Calidad Radial Electrolytic Capacitors. The purchase made, you will see payment information in relation to this option. The basic purpose of a condenser is to store electrical loads and, through this preservation, has its function in a circuit based on electronic design. In case of doubt, contact our support by contact us. Make the payment only after this request. Electrolytic profile condensers Diccanto de Bajo Profile 10UF / 25V. High-calido radial electrolytic capacitors. Total: R \$ 1.54 Capigo product: B41851A4108M000 See other branded products: EPCOS Payment options for EPCOS, company in the TDK group, develops, produces and markets electronic components and systems, focusing on rapid growth technology markets, which include the Automotive electronics, industrial electronics and consumer electronics, nonché computer technology and communication. How to connect a condenser is a power source, the condenser absorbs energy to the same tension of this source. We recommend looking for technical assistance for installation. ° C 1000UF x 16V 105 Electrolytic condenser; Home> Passive components> 1000UF @ 50V Production of electrolytic condenser No: AD1231 Private: US \$ 1.00 No. of existing items: 45 Available: EN Existing Description: Content of the Electric DiscoLamient of the Bajo Profile. Statis Son condensers Excellent transitors / overvoltages Y Biental functional for various electronic circuits. To have the calculation, make the request normally and ask our support, by contacting us the value of the additional tax replacement to your request. When removing the source, the condenser remains loaded and I can use this armored energy to power one circuit. These capacitors are excellent transient/overvoltage suppressors and work well as charge pump covers for MAX232 circuits. MAX232.

18/02/2012 · A continuación describo la construcción de un pequeño amplificador audio 12V ultracompacto de gran potencia. Como he dicho en mi artículo "Iluminando mi laboratorio con 12V", mas allá de la luces, estoy intentando conectar a mi instalación de 12V otros dispositivos electrónicos como por ejemplo el sistema de música distribuida.Como no disponia de un buen ... These electrolytic capacitors have a wide range of 0.1uF to 1000uF, with clearly marked values and voltage ratings on each capacitor for you to easy select and use. Our electrolytic capacitors are widely used in power supplies and in interconnecting stages of ...
